Workforce growth

#93 FTE as of 3M2026

#Cost income remaining at excellent levels due to the high efficiency of the operating machine and the economy of scale (IT proprietary platform)

Operating Costs

Operating costs increased mainly due to personnel costs, impacted by LTIs (phantom shares FV) and one-off items. Fixed personnel cost dynamics remain in line with FTE growth (+19%).

2026 first 3 months of the year confirm a growing trend, in line with full year budget:

- Profitability on track to meet FY2026 net income guidance (€32m), despite typical Q1 seasonality
- Good asset quality confirmed, NPE Ratio ~ 2%
- Cost-income ratio temporarily elevated due to LTI (FV phantom shares) and one-offs; underlying operating leverage remains intact
- Macroeconomic evolution and more difficult environment for SME lending support our business
- 2026 tax rate increase driven by +2 p.p. IRAP base rate and lower interest deductibility (96%)

New steps ahead to further support our numbers:

- New sellers pipeline set to push growth ahead
- Robust and diversified funding structure to support future growth
- Strong Capital ratios (TCR > 19%) allowing a sound capital buffer
- Expanding Generalfinance abroad (Suisse, by year end)
- **Net Income 2026 guidance confirmed: > 32 €Mln**
